### Installation, Operation and Maintenance Procedures

- Remove the front lid by three screws.
- Screw the loudspeaker to wall or ceiling by three screws.
- Lead cable through cable gland, connect to terminal (70V or 100V) and select required tapping in to the transformer.
- To change the direction of the loudspeaker, adjust the sound unit into the required direction.
- Screw the lid back into place by three screws to secure the lid and hold the loudspeaker in the selected direction.
- The lid must be loosened before adjusting the direction of the loudspeaker.
- For optimum performance, always use the correct voltage / power and operate within the frequency limits as stated.
- Do not open the loudspeaker when energized.
- This loudspeaker is supplied with two years warranty against defective workmanship.

DNH reserves the right to alter specifications without notice.
